- The Colors class now available on CD

Underneath the world of individual Human Design and the Body Graph are layers of imprint that assign each human to a few general categories of purpose and destiny. A line is divided into six colors, a color is divided into six tones and a tone is divided into five bases. To actually calculate to this degree of specificity, you need to have a very accurate birth time, recorded to the second.

This class on the Colors is part of the "Global Incarnation Index."

The edition on six CDs is another installment of the unedited and un-indexed "Rough Cut" series.

\$72 (plus \$7.20 shipping**)
