## The 1997 Ephemeris

1996 comes to a close and the new year is around the corner. 1996 was a difficult time for many, however strong and powerful. 1997 should prove to continue the trend with Pluto remaining one more year in gate 34, the Power of the Great, Uranus in gate 41, Decrease, and Neptune in gate 60, Limitation.

It is helpful to remember to use the ephemeris and to look at the planetary influences, especially when life seems to be more difficult than usual. It lightens the seriousness when you see that it is the Moon or another transit that brings out a quality in your life. Remembering No Choice is a good way of taking it easy on yourself.

For various reasons we discontinue the sophisticated annual Rave Ephemeris with the pictures of the Body Graph that many friends of Human Design have come to appreciate in the last two years. The newly developed 1997 Pocket Ephemeris is a full fledged, but compact ephemeris you can take with you. It contains tables of the planetary positions in 24 hour intervals throughout the year. The Moon is listed with the exact times of its gate changes in Mountain time, which makes it far easier to read for anybody living in America. Besides some handy references, it has a blank Body Graph to fill in with your own design so you can look up your daily activations without pulling out the big chart.

If you need greater accuracy for the planets, we recommend the Human Design Ephemeris for the 20th Century, which has the positions checked every twelve hours. When you are familiar with the tables in the previous Rave Ephemeris, you'll find it very easy to use. Volume V, containing the years 1981-2000, has been published so far. Besides covering the data for 1997, this volume is very helpful for research into the past or the future. Each year is separated from the next by an annual wheel depicting the transits of the outer

planets. There's also an index showing the 20 years of wheels in overview. This graphic image is great to study, as it shows the collective influences both in the past and in our now immediate future. For analysts this is an excellent reference book. You can find the Uranus oppositions for people born between 1940 and 1960 approximately.

## 13. The Power of the Great II

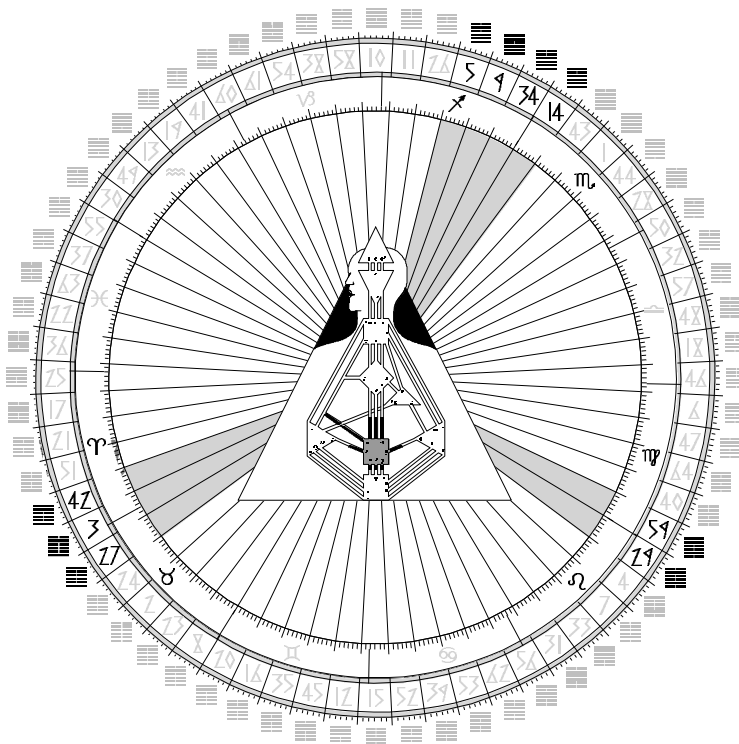

**T**he Sacral center is the center of vitality. Vitality is often confused with energy. The Human Design System helps to distinguish between the two terms: Energy comes from the Root center; vitality is power from the Sacral, a generator, as Ra terms it. It can re-generate within its own limits through rest, relaxation and sleep, but only if allowed to. Otherwise it will de-generate in the long run and produce degenerative illnesses.

Two thirds of the workings of the Sacral center evade our potential awareness: the three tantric channels and the three energy formats. Vitality forms by itself and we are only able to observe its results.

Gate 34 is the Power of the Great, the pure egoism of vitality. Here everything focuses and collects to manifest: channel 34-20 is the Sacral's only direct connection to the Throat and, again, it is possible without participation of an awareness. Life doesn't ask, it happens.

Vitality needs and has its own rhythm (5) emerging from its concentration (9), its own direction (14) emerging from its (dis-)order (3), its own meaningful theme (29) emerging from its maturation (42). In addition, vitality cares for the interior in the 27, opens to the exterior in the 59, and has the potential to manifest all of that with concentrated power (34) in the here and now.

Pluto's activation of gate 34 helps to manifest aspects one might have activated in the Sacral center, with great power.

The 9 gates of the Sacral center in the wheel

Everybody has an opportunity to learn something about their vitality: it is fully developed only if all the vitality-themes in a design can be expressed.

If vitality cannot unfold and manifest in its unique setup, the power will still be there and turn toward itself. Thus aggression turns into self-hate, vitality into depression. The suppression of vitality results in suppression of vital functions with all the consequences. Pluto works with great power to expose and manifest vitality. But remember the keynote of the gate: Power is only great if it serves the common good. And Pluto is a collective planet.

The Human Design School offers a variety of trainings for those who want to learn the Human Design System. The **Basic training** is the key to becoming a student of Human Design. It presents the foundation of the knowledge, the basic language and mechanics. So fundamental is the knowledge, that it is a prerequisite for attendance in any other training of the Human Design School.

The **Advanced training** provides the knowledge necessary to do Human Design analysis. Its completion is a prerequisite to become a professional Human Design analyst.

At this time, Zeno is the only teacher available in America for both the Basic and Advanced trainings. After teaching the Basic training for two years on the road, she is now offering the

**Basic correspondence** course, using tapes, study materials, answer sheets. The response to the initial announcement shows great demand for this kind of service. Zeno will also offer two Advanced trainings in 1997, coinciding with Ra's two visits to Taos.

All courses require Basic training. Teachers training prep and exam open to licensed analysts.

**Take advantage:** discounts for taking more than one class in either spring or fall greatly reduces price per class:

|             |     |
|-------------|-----|
| 2 trainings | 5%  |
| 3 trainings | 10% |
| 4 trainings | 15% |
| 5 or more   | 20% |

It is very exciting to announce that during his annual stay in the fall, Ra will teach a whole **variety of courses** in a row, each of them exploring depths of a specific theme that were previously unavailable. The Fall School will be **over a period of three weeks** which is sure to attract a lot of traffic from friends of Human Design to

Taos, New Mexico. All these classes are open to anyone who has participated in a Basic training.

In addition to the fall, Ra will be in Taos in spring for the first US **Teachers training** program. Licensed analysts are invited to participate in a two day Teachers training prep that includes an entrance exam to determine eligibility to attend the course to become a Human Design teacher. Future teachers will work within the framework of New Sun Services America and the Human Design School, offering Basic trainings, workshops, study groups and also introduce the Human Design System publicly. We are looking forward to having more teachers of the Human Design System in the US. This is going to be an exciting year for students of Human Design.
